Proje hakkında

This project aims to be a contribution to the professional, pedagogical, personal and social training of our students, in order to make them more sensitive to an unavoidable and increasingly important theme, which is interculturality. It aims to investigate, compare and share historical, geographical, linguistic, cultural, etc. references with other countries on the eTwinning platform in English. The project assumes that students individually or in groups investigate and compare cultural differences between their country and another chosen by them in terms of: typical dress, historical dates, geographic location and its socio-economic implications, food, traditional music, ecosystems, etc. Students can also do a theatrical performance about a historical period or traditions in their country.

Projemizin Kayıt Belgesi ve Ulusal Kalite Etiket Belgesi

 

eTwinning proje kayıt belgesi

Bu sertifika

GÖKAY ARSLAN
Yakutiye Mesleki ve Teknik Anadolu Lisesi, Türkiye

adlı öğretmenin

INTERCULTURALITY
